Reproduction for Research

The Archives and Records Management Department will consider requests for limited reproductions of materials when such duplication can be done without injury to the material and when duplication does not violate donor agreements or copyright law.

Reproductions are to be used for personal research only and are not to be copied or distributed in any manner unless agreed to by the Head of Archives or his/her designee.

Permission to Publish

Researchers should be aware that the Copyright Law of the United States (Title 17, UCS) provides protection for unpublished materials as well as for published works. Permission to publish from or to quote from previously unpublished manuscripts or from published items under copyright must first be obtained from the copyright holder.

It is the researcher's responsibility to secure permission to pubish.

Requests to publish material copyrighted by the Georgia Institute of Technology must be obtained from the Head of Archives or his/her designee.
